Rizal, Taguig

SUMMARY

Licensed Civil Engineer with experience in cost estimation, structural analysis support, and technical documentation. Skilled in interpreting structural and architectural drawings, preparing BOQs, and developing automated Excel-based pricing models. Proficient in ETABS, STAAD, SAFE, AutoCAD, and PlanSwift. Experienced in multidisciplinary coordination for construction and vertical transport projects.Also skilled in programming and automation, developing custom Excel VBA tools and computational workflows to streamline processes and improve accuracy and efficiency.

TECHNICAL SKILLS

- **Structural & Design:** ETABS, STAAD, SAFE, SPColumn, Revit, AutoCAD (2D), SketchUp (3D)
- **Cost & Estimation:** BOQ/BOM preparation, Quantity Take-offs, PlanSwift, Excel VBA & Power Query (automation)
- **Project & Office Tools:** MS Project, Primavera, Bluebeam, Microsoft Office (Excel, Word, PowerPoint), Data Analysis & Reporting
- **Programming & Automation:** Excel VBA, Python (engineering calculations & workflow automation), Macros, Custom tools for cost estimation and reporting
- **Additional Skills:** Basic Japanese language familiarity (self-study) and familiarity with Japanese business culture through work experience at IEEI

CORE COMPETENCIES

- **Analytical & Detail-Oriented Problem Solving:** Structural analysis, cost estimation, and engineering computations.
  Technical Communication & Coordination: Interpreting drawings, preparing BOQs, and collaborating across multidisciplinary teams.
- **Critical Thinking & Process Optimization:** Workflow automation, Excel VBA modeling, and data-driven decision making.

PROFESSIONAL EXPERIENCE

Independent Freelance Civil Engineer | Jan 2025 – Present

- Conducted structural analysis, **ETABS** modeling, and technical reporting for project feasibility and compliance.
- Revised structural drawings and performed **AutoCAD** drafting for various projects.
- Created 3D **SketchUp** models for residential buildings, from conceptual to finished designs.
- Provided one-day consultation services for thesis and small-scale structural projects.

Cost Estimator | International Elevator & Equipment, Inc. (Subsidiary of Mitsubishi Electric) | May 2025 – Present

- Prepared specification-based cost estimates and itemised quotations for structural and elevator-related works.
- Developed Excel-based pricing and cost models with advanced automation to improve accuracy and traceability.
- Reviewed technical drawings and structural specifications to validate quantities and ensure compliance.
- Provided technical clarifications and variance explanations to internal stakeholders and clients.

Junior Civil Engineer | Alliance Textile Mills Inc. (Contractual Project) | Jan 2025 – Apr 2025

- Conducted quantity take-offs, structural analysis support, and budget preparation for civil works.
- Prepared construction drawings and ensured compliance with NSCP/NBCP standards.
- Monitored project schedules using MS Project, coordinating technical and cost requirements.
- Presented consolidated technical, schedule, and cost packages to management.

EDUCATION

Bachelor of Science in Civil Engineering- Specialized in Construction Management
Technological Institute of the Philippines (2020 –2024)

- VPAA Lister (2020-2022)
- Inter-Year Level Civil Engineering Quiz Show 2023-2024 (Semi-Finalist)

Department of Science and Technology Scholar (2020 –2024)
Science Technology Engineering Math (STEM)
University of Makati, Senior High School (2018-2020)

- Dean's Lister
- Research Congress (2019) Second Placer

CERTIFICATIONS

- Certificate of Participation: Knights of Safety “Safety Data Sheet Awareness”
- SDP Digital Certificate
- **EIT Performance-Based Design for Beginners**: Basic Concepts and Applications
- Xstructures: **Design Beyond Limits: Empowering Structural Engineering Certificate**
