

RUZZEL A. DULAY, RCE

Licensed Civil Engineer

Address: Taguig City, Philippines
Phone: +63 994 944 1466
Email: dulayruzzel13@gmail.com
Portfolio: portfolioruzzeldulay.netlify.app

ABOUT ME

Licensed Civil Engineer who combines domain knowledge in structural modeling and construction cost control with hands-on Python and Excel/VBA development. Built estimating and reporting workflows and is developing Pandarithm to explore verifiable structural calculations. Interested in digital engineering roles where automation supports, rather than replaces, engineering judgment.

EDUCATION

Technological Institute of the Philippines - Manila
Bachelor of Science in Civil Engineering
2024

Registered Civil Engineer
PRC | Licensed November 2025

DOST-SEI Scholar (RA 7687)
2020 - 2024

LANGUAGES

- Filipino
- English

SKILLS

Software and Modeling

- ETABS, STAAD.Pro, SAFE
- Autodesk AutoCAD
- Microsoft Excel / VBA
- Python
- Engineering dashboards

Technical Knowledge and Competencies

- RC and steel modeling
- Structural analysis and NSCP familiarity
- Quantity estimation
- Cost control and reporting
- Engineering automation
- Technical documentation

WORK EXPERIENCE

Millennium Erectors Corporation **Apr 2026 - Present**
Cost Control Engineer

- Track project spending against budgets and prepare progress-billing and subcontractor documentation to support commercial decisions.
- Turn expense records into variance reviews, cash-flow summaries and cost-to-complete reporting for management review.
- Build Excel reports and dashboards to make recurring cost-control reviews easier to trace and update.

IEEI | Mitsubishi Electric **May 2025 - Apr 2026**
Cost Estimator

- Estimated technical solutions for Mitsubishi Electric building systems through International Elevator & Equipment, Inc. (IEEI).
- Prepared estimates and quotations for elevator and related building transportation works.
- Worked within a portfolio covering elevators, escalators, moving walks, dumbwaiters and automatic doors.
- Translated specifications and drawings into itemized quotations; developed Excel/VBA tools to make proposal preparation more repeatable.

Alliance Textile Mills Inc. **Jan - Apr 2025**
Junior Civil Engineer

- Assisted with ETABS modeling and AutoCAD documentation for reinforced-concrete and steel projects, linking analysis work to drawings.
- Prepared quantity takeoffs, budget inputs and schedules, building an early foundation in design-to-construction coordination.

UNDERGRADUATE COURSEWORK

Nonlinear Seismic Analysis Thesis

- Time-history analysis of a five-story school building, comparing seismic resilience strategies.

AFFILIATIONS / CREDENTIALS

Registered Civil Engineer
Professional Regulation Commission
Licensed November 2025

DOST-SEI Scholar
RA 7687 | 2020 - 2024

PORTFOLIO

portfolioruzzeldulay.netlify.app

CHARACTER REFERENCE

Available upon request.

SELECTED PROJECTS & EVIDENCE

Pandarithm | Structural Engineering Software

- Developing a web-based structural analysis tool with defined loads, supports and benchmark comparisons; module verification ongoing.

Engineering Cost Automation

- Developed Excel/VBA costing, reporting and dashboard workflows for repeatable project analysis.

Structural Modeling and Seismic Research

- Supported ETABS/AutoCAD modeling and completed an academic nonlinear seismic response study.

TECHNICAL DEVELOPMENT

- Structural modeling and analysis with ETABS and STAAD.Pro
- Python-based engineering calculations and benchmarking
- Cost estimating, spreadsheet automation and reporting
